TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java, C , HTML, CSS

Frameworks and Tools: React.js, Node.js, SQL, AWS, GitHub Actions, Figma

Concepts: Operating Systems, Database Management System(SQL), Object-Oriented Programming(OOP)

EDUCATION

BMS Institute of Technology and Management

Expected Graduation: June 2027

Bachelor of Engineering in Computer Science and Engineering (GPA: 7.2 / 10.0)

Government Polytechnic Vijayapura

Graduated: May 2024

Diploma in Computer Science and Engineering (GPA: 9.2 / 10.0)

EXPERIENCE

Arlig Technologies

November 2023 – February 2024

Intern

Vijayapura, Karnataka, India

- Developed and maintained responsive web application using React.js, ensuring optimal performance and scalability.
- Collaborated with the design team to translate UI/UX wireframes into high-quality, interactive code.
- Used AWS to host and deploy the application, ensuring scalability and reliability.
- Managed project code and collaboration through GitHub, streamlining development workflow.
- Designed a user-friendly website for the team to easily access and reference project resources, improving workflow efficiency.
- I have used React.js for building the frontend, MySQL for handling the database, and Figma for designing UI/UX. I also worked with GitHub for version control and deploy projects on AWS.

PROJECTS

PetPicks-Ecommerce Website for Pet products

- Built an interactive e-commerce site where pet owners can easily find and buy pet products.
- Added features like different categories of pet products, smart billing system with discounts and interactive elements to make shopping easier and more engaging.

Technologies: React, AWS, Figma, GitHub
